

## Three Days Workshop

on

*“Linear Algebra for Engineering Applications and Hands on Training with MATLAB”*

1<sup>st</sup> - 3<sup>rd</sup> April, 2019

The Department of Mathematics, Bangalore Institute of Technology, Bengaluru in association with Karnataka State Council for Science and Technology (KSCST), Karnataka Information Technology Services (KITS) organized three day workshop on "Linear Algebra for Engineering Applications and Hands on Training with MATLAB" during 1<sup>st</sup> – 3<sup>rd</sup> April 2019. The workshop was inaugurated on 1<sup>st</sup> at 9.30 am by Prof. R Vittal Rao from IISc, Bengaluru.

The workshop included the discussion of the concepts and uses of linear algebra within the context of theoretical models dealing with current and future data for engineering applications by leading academics in the field of Linear algebra. Further, the participants of the workshop were given the opportunity to have hands on experience in Linear Algebra using MATLAB Software.
